7-1 Study Guide and Intervention. Graphing Exponential Functions. Exponential Growth An exponential growth function has the form $y = ab^x$, where $b > 1$. The graphs of exponential equations can be transformed by changing the value of the constants a , h , and k in the exponential equation: $(x, f(x)) = (x - h, a(b^{x-h}) + k)$. Graph $y = 4x + 2$.
