Accounting Textbooks - Open Textbook Library
Accounting the language of business. The process of identifying, measuring, and communicating economic information to permit informed judgments and decisions by the users of the information. Accounting process provides financial data for a broad range of individuals whose objectives in studying the data vary widely.

Introduction: What Is Accounting | Financial Accounting
These are the building blocks of the basic accounting equation. The accounting equation is: ASSETS = LIABILITIES + EQUITY. For Example: A sole proprietorship business owes \$12,000 and you, the owner personally invested \$100,000 of your own cash into the business. The assets owned by the business will then be calculated as:

2.3 The Basic Accounting Equation | Principles of Accounting I
