This book covers those areas of the APM Body of Knowledge that are included in the current Project Fundamentals Qualification syllabus. (Formerly called the APM Introductory Certificate) To study for this qualification requires no prior knowledge or experience in project management. It is designed for anyone starting out on the first steps of a career in project management or those simply working in or around a project environment and who need to know a little more about project management. There are two ways you can register to sit the PFQ examination: by registering for a training course and exam with an accredited training provider, or by self-study and sitting the exam on one of APM's open events. Assessment is by a 60 question, multiple-choice exam taken over one hour. The book contains a sample 60 question exam with answers.
