Bedtime Math: A Fun Excuse to Stay Up Late: Overdeck ...

Many generations of Americans are uncomfortable with math and numbers, and too often we hear the phrase, "I'm just not good at math!" For decades, this attitude has trickled down from parents to their kids, and we now have a culture that finds math dry, intimidating, and just not cool. Bedtime Math wants to change all that. Inside this book, families will find fun, mischief-making math problems to tackle—math that isn't just kid-friendly, but actually kid-appealing.

Over 100 kid-friendly story math problems on topics from jalapeños and submarines to roller coasters and flamingos, designed to make math a fun part of kids' everyday lives --

Our mission: to make math a fun part of kids' everyday lives. We all know it's wonderful to read bedtime stories to kids, but what about doing math? Many generations of Americans are uncomfortable with math and numbers, and too often we hear the phrase, "I'm just not good at math!" For decades, this attitude has trickled down from parents to their kids, and we now have a culture that finds math dry, intimidating, and just not cool. Bedtime Math wants to change all that. Inside this book, families will find fun, mischief-making math problems to tackle—math that isn't just kid-friendly, but actually kid-appealing. With over 100 math riddles on topics from jalapeños and submarines to roller coasters and flamingos, this book bursts with math that looks nothing like school. And with three different levels of challenge (wee ones, little kids, and big kids), there's something for everyone. We can make numbers fun, and change the world, one Bedtime Math puzzle at a time.

"We want kids to feel about math the way they feel about dessert after dinner." —Laura Overdeck, Time magazine Our mission: to make math a fun part of kids' everyday lives. When is the last time you gave your child a math problem just for fun? Yesterday? Last year? Maybe never? We all know it's wonderful to read bedtime stories to kids, but the question remains—what about doing math? Math has a negative association in our culture and many Americans are uncomfortable and even fearful of math and numbers. But Bedtime Math is here to change all that. In Bedtime Math 3, math and fun facts combine for one wacky and wild adventure! Now kids can discover the truth behind all their favorite things: marshmallows, Coca-Cola, astronaut ice cream, and more! These fun, mischief-making math problems aren't just kid-friendly, but actually, kid-appealing. With over 100 math problems on a variety of topics, kids will find math isn't just fun—it can be found everywhere! And with three different levels of challenge (Wee ones, Little kids, and Big kids), plus a Bonus question, there's

something for everyone. We can make numbers fun—and change the world—one Bedtime Math problem at a time.

"We want kids to feel about math the way they feel about dessert after dinner." —Laura Overdeck, Time magazine Our mission: to make math a fun part of kids' everyday lives. In, *Bedtime Math: This Time It's Personal*, families will find fun, mischief-making math problems that kids can't wait to figure out. With over 100 math riddles on topics from pillow forts and sneeze speeds to overfed pets and underwear, kids will find math isn't just fun, it can be found in their everyday lives. And with three different levels of challenge (Wee ones, Little kids, and Big kids), plus a brand-new Bonus question, there's something for everyone. Just as we all love stories before bedtime, families will find math is equally as fun and engaging. Many generations—kids and parents included—have been intimidated by math, but *Bedtime Math* is here to change all. We can make numbers fun, and change the world, one *Bedtime Math* puzzle at a time.

Answers to unusual questions, using mathematics. First two questions, as examples: How many birds would it take to pick you up and fly with you?; and, How many bees does it take to make one jar of honey?

"We want kids to feel about math the way they feel about dessert after dinner." —Laura Overdeck, Time magazine Our mission: to make math a fun part of kids' everyday lives. Many generations—kids and parents included—have been intimidated by math, but *Bedtime Math* is here to change all. We can make numbers fun, and change the world, one *Bedtime Math* puzzle at a time.

Invites readers to explore math history and concepts, covering different types of numbers, geometry, measurements, transformations, probabilities, and statistics.

How do you approach a math problem that challenges you? Do you keep trying until you reach a solution? Or are you like Amy, who gets frustrated easily and gives up? Amy is usually a happy and enthusiastic student in grade five who loves to dance, but she is struggling with a tough math assignment. She doesn't think she is good at math because her classmates always get the answers faster than she does and sometimes she uses her fingers to help her count. Even though her mom tries to help her, Amy is convinced she just cannot do math. She decides not to do the assignment at all since she thinks she wouldn't do well anyway. As Amy goes about her day, her experiences at ballet class, the playground, and gym class have her thinking back to how she gave up on her math assignment. She starts to notice that hard-work, practice, and dedication lead to success, thanks to her friends and teachers. She soon comes to understand that learning math is no different than learning any other skill in life. With some extra encouragement from her math teacher, a little help from her mom, and a new attitude, Amy realizes that she can do math!
