NATURE OF THE WORK

Thousands of women are murdered every year by close relatives for allegedly violating an unwritten social code or rebelling against the patriarchal order. The book examines the roots and evolution of honor-based violence, as well as the ongoing struggle to eradicate it worldwide.

A leading expert in Indian family law and one of India's most successful and respected divorce lawyers, Malavika Rajkotia has seen the drama of marriages coming undone at close quarters--the effects of infidelity, jealousy, domestic violence, property disputes and the end of love and compatibility. In this important and revealing book, she draws upon her own extensive experiences in court and with her clients, as well as on case law, to lay bare the mysteries of marriage, divorce and family law. *Intimacy Undone* examines the institution of marriage in India, from its historical roots to its evolution towards the moral, social and legal position it holds today. This wide-ranging, perceptive book tackles subjects as diverse as the gender equations underpinning society, how current Indian property and family laws came into being, and the controversy about the Uniform Civil Code, deftly tying them all into a crucial argument about love, marriage and divorce. Along the way, Malavika Rajkotia also brings alive the drama of the divorce courts, critiques the foibles of the institutions involved, and, throughout, furthers the aim of family law to bring about a steadily more equal society. An erudite and fascinating survey of family law and a wisely reflective account of our political and legal history, *Intimacy Undone* gives readers crucial insights into the future of family and marriage in India.

Part Two. HUMAN RIGHTS

Indian communities have settled and thrived in the United Kingdom and many other commonwealth countries. The retention of ties with families remaining in India has meant that where family law issues arise they frequently have cross-border dimensions, for example, as to the validity of an Indian marriage. Domestic practitioners are ill-equipped to address such problems. This unique handbook has been written specifically to assist the family lawyer acting for Indian clients. It describes relevant Indian law and religious custom, ranging from marriage to divorce and covering adoption and abduction and property issues. In addition, it explains the English law applicable to such matters, for instance, in relation to the recognition of Indian orders or the immigration status of the individual. The book cites a wealth of Indian case law that is otherwise not readily available to the non-Indian lawyer.

The Encyclopedia of Domestic Violence is a modern reference from the leading international scholars in domestic violence research. This ground-breaking project has created the first ever publication of an encyclopedia of domestic violence. The primary goal of the Encyclopedia is to provide information on a variety of traditional, as well as breakthrough, issues in this complex phenomenon. The coverage of the Encyclopedia is broad and diverse, encompassing the entire life span from infancy to old age. The entries include the traditional research areas, such as battered women, child abuse and dating violence. However, this Encyclopedia is unique in that it includes many under-studied areas of domestic violence, such as ritual abuse-torture within families, domestic violence against women with disabilities, pseudo-family violence and domestic violence within military families. It is also unique in that it examines cross-cultural perspectives of domestic violence. One of the key special features in this Encyclopedia is the cross-reference section at the end of each entry. This allows the reader the ability to continue their research of a particular topic. This book will be an easy-to-read reference guide on a host of topics, which are alphabetically arranged. Precautions have been taken to ensure that the Encyclopedia is not politically slanted; rather, it is hoped that it will serve as a basic guide to better understanding the myriad issues surrounding this labyrinthine topic. Topics covered include: Victims of Domestic Violence; Theoretical Perspectives and Correlates to Domestic Violence; Cross-Cultural Perspectives and Religious Perspectives; Understudied Areas within Domestic Violence Research; Domestic Violence and the Law; and Child Abuse and Elder Abuse.
