Some form of globalization may be inevitable over the long-run, but the historic bumps spurred by economic crises and other consequences suggest that change is the only reliable constant.

According to U.S. Customs and Border Protection, escalated U.S. tariffs on Chinese imports raised \$20.8 billion through mid-July 2019.

## ~~The Impact of Globalization on Economic Growth~~

We live more and more in a global community, and are experiencing a global economic order. Is globalization new? Not really. The scope and worldwide reach of our present globalization is new. However, from 1860 to 1914 there was a significant globalization trend which was also spurred by developments in transportation and communication.

~~Prospects and ...~~

Globalization was a great force of spreading new technologies and providing new economic opportunity to labour in both developed and developing economies. Contrary to much commentary, it helped to put a higher premium on human capital and giving firms new chances to employ the staff they need to compete successfully.

~~The Economic Benefits of Globalization for Business and ...~~

Economic globalization is one of the three main dimensions of globalization commonly found in countries, academic literature, with the two others being political globalization and cultural globalization, as well as the general term of globalization. Economic globalization refers to the widespread international movement of goods, capital, services,
