Using Unisphere for VMAX Unisphere for VMAX is a management tool that is used to manage VMAX storage arrays. Excluding the data and temp directories from virus scans The Foundation Suite is included with VMAX to provide Unisphere for VMAX

Using Unisphere for VMAX

This product is the main reason for the rapid growth of EMC in the 1990s, both in size and value, from a company valued hundreds of millions of dollars to a multi-billion company. Moshe Yanai managed the Symmetrix development from the product's inception in 1987 until shortly before leaving EMC in 2001, [2] and his Symmetrix development team grew from several people to thousands.
