The European Union (EU) has expanded a number of times throughout its history by way of the accession of new member states to the Union. To join the EU, a state needs to fulfil economic and political conditions called the Copenhagen criteria (after the Copenhagen summit in June 1993), which require a stable democratic government that respects the rule of law, and its corresponding freedoms and institutions.

Enlargement of the European Union - Wikipedia

The EU's enlargement policy aims to unite European countries in a common political and economic project. Guided by the Union's values and subject to strict conditions, enlargement has proved to be one of the most successful tools in promoting political, economic and societal reforms, and in consolidating peace, stability and democracy across the continent.

Enlargement of the European Union - European Commission

Over the last two decades, the enlargement of the European Union has resulted into political headlines across Europe. This is as a result of the high number of states that have applied for inclusion in the community after the fall of communism in the continent in the last decade of the 20th century. The last two enlargements have been therefore the most spectacular due to the number of states many of them in a transition state joining the union.
