The exciting new Heinemann Chemistry Enhanced series has been developed to support the 2007-2012 Chemistry Study Design. Key features: Chapter opener includes key knowledge statements and outcomes Each chapter is divided into clear-cut sections which finish with a set of summary points and key questions Chapter review questions are found at the end of each chapter Chemistry in Action boxes contain Chemistry in an applied situation of relevant context ChemCAL boxes flag the ChemCAL website which is found on Exam Cafe Online. Extension boxes contain material which goes beyond the core content of the study design The Area of Study Review includes a large range of exam-style questions both multiple choice and extended response The 'Cutting Edge' spreads are written by practising Australian scientists and have been updated to the most modern Chemistry to life while addressing this vital area of the study design Chemfacts are snippets of information that add interest and relevance to the text The glossary at the end of the book can be used to check the meaning of important words A comprehensive index is included and appendices include important support material.

The Heinemann Chemistry 2 Student Workbook Second Edition provides outstanding support for students studying Units 3 and 4 Chemistry. The second edition has been fully updated for the 2013-2016 study design.

Chemistry is often seen as a difficult subject to understand. This book focusses on the triangle model that Alex H. Johnstone developed in the early 1980s. The model has been applied in almost every area of education in chemistry at all stages of learning.

The Heinemann Chemistry 1 Second Edition Student Workbook provides support, practical activities, worksheets and guidance for students studying Units 1 & 2 Chemistry. It is designed to be used in conjunction with the Student Book and give students the opportunity to practise and consolidate concepts learnt in class. The workbook uses the best content from the previous editions in conjunction with new content developed specifically for the VCE Chemistry Study Design 2016 - 2021 including Area of Study 3 skill development worksheets.

The fourth editions of Heinemann Chemistry 1 and Heinemann Chemistry 2 have been updated to support the current accredited Chemistry Study Design, which has been extended to 2014. The new Heinemann Chemistry 1 is presented as a student pack consisting of a student book and an Exam Café CD.

This book provides an unparalleled contemporary assessment of hydrocarbon chemistry – presenting basic concepts, current research, and future applications. – Comprehensive and updated review and discussion of the field of hydrocarbon chemistry – Includes literature coverage since the publication of the previous edition – Expands or adds coverage of: carboxylation, sustainable hydrocarbons, extraterrestrial hydrocarbons – Addresses a topic of special relevance in contemporary science, since hydrocarbons play a role as a possible replacement for coal, petroleum oil, and natural gas as well as their environmentally safe use – Reviews of prior edition: “...literature coverage is comprehensive and ideal for quickly reviewing specific topics...of most value to industrial chemists...” (Angewandte Chemie) and “...useful for chemical engineers as well as engineers in the chemical and petrochemical industries.” (Petroleum Science and Technology)

This work is the accompanying teacher's book to the student book and gives the answers to all the questions in the student book together with details of how the student book delivers all the content statements in Higher chemistry.

The Foundation Edition focuses on the core and lower level content in the QCA Scheme of Work. This makes it easier for lower achievers to understand fundamental concepts.
