Alternative fuel vehicles: guidance for MOT testers What MOT testers need to know about how hybrid, electric and hydrogen fuel cell vehicles work, and what to do when inspecting these vehicles.

Alternative fuel vehicles: guidance for MOT testers - GOV.UK

An alternative fuel vehicle is a motor vehicle that runs on alternative fuel, an energy other than traditional petroleum fuels (petrol or Diesel fuel); and also refers to any technology of powering an engine that does not involve solely petroleum (e.g. electric car, hybrid electric vehicles, solar powered). Because of a combination of factors, such as environmental concerns, high oil prices and ...

Alternative fuel vehicle - Wikipedia

Alternative Fuel Vehicles (AFVs) are not powered solely by the conventional means of petrol or diesel and are generally regarded as better for the environment, as they tend to emit fewer polluting greenhouse gas emissions. AFVs may currently make up a relatively small proportion of the new-car market in the UK, but their share is growing as the cost of technology comes down and the selection ...

A Beginner's Guide to Alternative Fuel Vehicles - CarGurus

The Federal Highway Administration (FHWA) recently announced the designation of the nation's first alternative fuel corridors for electric, hydrogen, natural gas, and propane vehicles. Visit the FHWA website for more information.
