The condenser is part of the refrigeration system. The condenser requires monthly cleaning. Always disconnect power supply before carrying out Routine Maintenance. Failure to clean the condenser will reduce the performance and life of your Polar unit and may invalidate your warranty. The condenser is located above the refrigeration cabinet.

I wonder if anyone could offer me some help? I have a Polar refrigeration T315 Ice machine. It has been working fine until recently when it now thinks it is full of ice the whole time. The odd thing is, if you shine a torch light at the magic eye sensor that stops it making ice, it starts making ice until you take the torch
