They need to be able to manage and execute all aspects of procuring and managing contracts within a company. Because of this high level of responsibility, a company will first look to see if somebody has the right qualification.

What is Procurement and Contract Management? Why is it ...

Contract management encompasses everything from establishing the business case and confirmation of need through to relationship management and reviewing performance. It can be divided into two phases: upstream and downstream of the contract being awarded. The most successful contract management plan is one which includes a focus on upstream – or pre-award – activities.
