“When people hear about the Big Bang, they’re tempted to think of an explosion, something that happened somewhere in space. That’s not what we mean.” The book describes the quark-gluon plasma that existed and how it underwent phase transitions and how different kinds of particles and energy transformed through this and eventually created light elements and nuclear fusion in the first

EXL

Opponents argue the \$5.5 billion bond purchase would unnecessarily add debt during the economic downturn and question whether the state got enough bang for its first \$3 billion.

“Proposition 71 I think has done good work,” said Jeff Sheehy of San Francisco who, although he is a member of the governing board of CIRM, doesn’t believe it should be funded with any more bond money.
