(Fun KS3 Science revision quizzes to teach students in Year 7, Year 8, and Year 9) Science is how the world goes around. Or rather, it's the study of how the world goes around. Whether it's the littlest bug (let's call him Jerry, that sounds like a little bug's name) or the biggest solar system, through observation and experiment, Science aims to explain the unexplainable. In KS3, you'll notice the stuff you tackle is a little bit trickier.

The booklet also includes essential marking schemes for marking the Tests.

KS3 Maths Complete Study & Practice (with online edition)

This Framework Edition Teacher Support Pack offers comprehensive support and guidance, providing the best possible learning experience for your students and saving time for everyone in the department.

This pack of actual examination papers from 1999 is designed to assist school students in preparing for their national tests. It offers support and guidance both for students and parents, and gives a clear explanation of the marking schemes.

These packs of test papers provide parental- or self-assessment that can be easily carried out at home. Each pack contains three sets of assessment test papers. The questions have been written by experienced teachers and are based on the programme of study for Key Stage 3.

The Sutherland Inquiry, (HCP 62, session 2008-09, ISBN 9780102958393), is an independent inquiry remitted by the Office of the Qualifications and Examinations Regulator (Ofqual) and the Secretary of State for Children, Schools and Families, into the delivery of the National Curriculum tests in 2008. In July 2008, 1.2 million pupils heard that their National Curriculum test results would be delayed. The test delivery service represented a failure in customer delivery service, to the pupils, schools and also the markers upon whom the National Curriculum testing regime relies. The primary responsibility must therefore rest with the American organisation, ETS Global BV (ETS), which won the public contract to deliver the tests and failed its customers. This report examines how this organisation secured the contract, what its plans were, and why its systems and process as a whole were not properly tested. The report will also describe how ETS's systems failed during the test delivery process. There was also a failure on the part of the Government's Non-Departmental Public Body, the Qualifications and Curriculum Authority to deliver its remit. The report also sets out the procurement process that QCA used to select its delivery supplier, ETS, and how it managed the contract. The report sets out a number of recommendations on how test delivery can improve in future years, and has set out a number of key priorities, including: that the delivery process of the National Curriculum tests should be modernised and improved, in consultation with the marking community, including piloting online marking; that whatever process is used should be thoroughly piloted and project managed to ensure schools and pupils get their results on time; that the customer service provided to markers must be vastly improved to ensure that they are properly
