English-speaking populations. As we have learned more about the way that children learn to read and write other scripts - whether they have less regularity in their grapheme-phoneme correspondences or do not make use of alphabetic symbols at all - it has become clear that many of the difficulties that confront children learning to read and write English specifically are less evident, or even non-existent, in other populations. At the same time, some aspects of learning to read and write are very similar across scripts. The unique cross-
