From one of the world's leading natural scientists and the acclaimed author of *Trilobite!*, *Life: A Natural History of Four Billion Years of Life on Earth* and *Dry Storeroom No. 1* comes a fascinating chronicle of life's history told not through the fossil record but through the stories of organisms that have survived, almost unchanged, throughout time. Evolution, it seems, has not completely obliterated its tracks as more advanced organisms have evolved; the history of life on earth is far older—and odder—than many of us realize. Scattered across the globe, these remarkable plants and animals continue to mark seminal events in geological time. From a moonlit beach in Delaware, where the hardy horseshoe crab shuffles its way to a frenzy of mass mating just as it did 450 million years ago, to the dense rainforests of New Zealand, where the elusive, unprepossessing velvet worm has burrowed deep into rotting timber since before the breakup of the ancient supercontinent, to a stretch of Australian coastline with stromatolite formations that bear witness to the Precambrian dawn, the existence of these survivors offers us a tantalizing glimpse of pivotal points in evolutionary history. These are not "living fossils" but rather a handful of tenacious creatures of days long gone. Written in buoyant, sparkling prose, *Horseshoe Crabs and Velvet Worms* is a marvelously captivating exploration of the world's old-timers combining the very best of science writing with an explorer's sense of adventure and wonder.

Violence Assessment and Intervention: The Practitioner's Handbook, now in its third edition, provides a proven methodology, grounded in the current empirical research and the authors' experience in successfully assessing and managing thousands of cases in a variety of contexts and environments, for analyzing concerning behaviors and potential threatening situations, and taking action in these challenging, dynamic environments before tragedy occurs. Threat and violence assessment and management is an essential process in reducing violence and its consequences. The ongoing challenge for those assessors, particularly in common workplace environments (e.g., educational settings, public agency settings, and business settings), is applying the applicable behavioral science research in a practical and effective manner to maximize safety. The book begins by demonstrating the threat and violence assessment process from the point of the initial call and proceeds through the steps that quantify the situation and determine the appropriate response. The next section covers information gathering, victimology, and formulas and tools for risk assessment. Finally, the book explores organizational influences, school violence, ethics, security and consultation issues; the formation and running of threat management teams, and relevant laws related to violence assessment. This book is a valuable reference for human resource professionals, security professionals, mental health practitioners, law enforcement personnel, and lawyers who are members of threat assessment teams, provide threat and violence assessment and management consultations, as well as expert witnesses in cases involving workplace violence, school violence, security negligence; or wrongful termination or disputed school disciplinary actions related to aggressive, threatening, or violent behavior.

Mary Jo Putney's riveting Lost Lords series unleashes a high stakes royal plot--which may prove easier for Damian Mackenzie to handle than his own unruly desire. . . He's a bastard and a gambler and society's favorite reprobate. But to Lady Kiri Lawford he's a hero--braver than the smugglers he rescues her from, more honorable than any lord she's ever met, and far more attractive than any man has a right to be. How can she not fall in love. . .? But Damian Mackenzie has secrets that leave no room in his life for courting high-born young ladies--especially not the sister of one of his oldest friends. Yet when Kiri's quick thinking reveals a deadly threat to England's crown, Damian learns that she is nowhere near as prim and respectable as he first assumed. . .and the lady is far more alluring than any man can resist. . . Praise for Loving a Lost Lord "Intoxicating, romantic and utterly ravishing. . ." --Eloisa James "Entrancing characters and a superb plotline. . ." --Publishers Weekly, starred review "Will leave readers smiling, breathless, and anxiously awaiting the next adventure. . ." --Library Journal, starred review "Romance at its best!" --Julia Quinn
