DR800 replaced the DR750 in 1990. The engine got six mm longer stroke (the bore was unchanged 105 mm), the cylinder displacement increased from 727 cc to 779 cc. Otherwise it was still just about the same bike. DR Big saw a major update in 1991. The gasoline tank was decreased with five litres, now being "only" 24 litres.

Provides comprehensive treatment of the FlexRay network, including its implementation through a real automotive application Includes the latest specifications (Version 3) concluded by the FlexRay consortium widely expected to become the industry standard Written by an author with in-depth experience of automotive electronics, including FlexRay, and presenter of specialist training courses to the industry Includes a review of industrial tools to help design and implement a FlexRay based distributor application

Aside from the odd four-stroke built in their formative years, it wasn't until 1976 that Suzuki manufactured such machines in significant numbers. Until then, it was two-strokes all the way. These models, many of which were the basis of successful racers, carried names like Titan, Cobra, Sebring, LeMans, Kettle, and Water Buffalo along with their codes. The author examines these models and others, providing the reader with: -- Extensive specification tables high lighting the variations in seemingly similar models --

Information to help the reader match model and marketing codes, essential when ordering parts or servicing a machine -- A model chart that matches full codes to their exact year, shows the years in which models were built, and explains the relationship between similar codes Also included is the RE5 with its rotary engine and unique styling, and Suzuki's minute but complex road racers, which carried as many as 14 speeds in their gearboxes. Illustrated throughout with black-and-white photographs of the models and their variants.

incompetence of decision-makers. A thorough examination shows a different picture. There are certain groups who have a vested interest in promoting a so-called New World Order, which is basically another term for totalitarian world government. The market is already full of books on the topic. This one is different. The author uses scientific methods to prove his points. For instance by applying the falsification theorem of Karl Popper to falsify conspiracy theories and fake news, he demonstrates beyond a shadow of a doubt that these are often spread by government and mainstream media. This book shows how the Austrian School of Economics presents solutions to most of the problems the world faces today. Its teachings provide knowledge for a deeper understanding of the so-called power elite's behavior. They equip the reader with the tools to analyze and predict the methods, strategies and tactics of interest groups such as big corporations, NGOs and secret societies, whose strong influence on society this book proves. In spite of its scientific approach, the German version under the name "Das Kapitalismus Komplott" (Capitalism Conspiracy) was a bestseller, receiving positive reviews for its concise and simple language. The English translation has been thoroughly updated and includes recent developments like the presidency of Donald Trump and the so-called immigration crisis, an important key in the ushering in of the New Word Order. The author

and journalist, Oliver Janich, is known for his work for the biggest publishing houses in Germany. He was the first in Europe and possibly worldwide to expose the lies and inconsistencies of the official version of 9/11 in a mainstream business magazine (Focus Money). His two books are both bestsellers in Germany and his Youtube Videos receive millions of views. Leading intellectuals such as Hans-Hermann Hoppe, Thorsten Polleit and Jörg Guido Hülsmann and celebrities like the popular singer Xavier Naidoo, stand-up artist and actress Lisa Fitz or Golden Globe Awardee Christine Kaufmann have all praised his work. Ron Paul commended the manifesto of the libertarian "Partei der Vernunft" ("Party of Reason") which Janich founded.
