~~The Courage to Teach: Exploring the Inner Landscape of a ...~~

The courage to teach is the courage to keep one's heart open in those very moments when the heart is asked to hold more than it is able, so that teacher and students and subject can be woven into the fabric of community that learning, and living, require. There are no techniques for reclaiming our hearts, for keeping our hearts open.

"This book is for teachers who have good days and bad – and whose bad days bring the suffering that comes only from something one loves. It is for teachers who refuse to harden their hearts, because they love learners, learning, and the teaching life." – Parker J. Palmer [from the Introduction] For many years, Parker Palmer has worked on behalf of teachers and others who choose their vocations for reasons of the heart but may lose heart because of the troubled, sometimes toxic systems in which they work. Hundreds of thousands of readers have benefited from his approach in THE COURAGE TO TEACH, which takes teachers on an inner journey toward reconnecting with themselves, their students, their colleagues, and their vocations, and reclaiming their passion for one of the most challenging and important of human endeavors. This book builds on a simple premise: good teaching cannot be reduced to technique but is rooted in the identity and integrity of the teacher. Good teaching takes myriad forms but good teachers share one trait: they are authentically present in the classroom, in community with their students and their subject. They possess "a capacity for connectedness" and are able to weave a complex web of connections between themselves, their subjects, and their students, helping their students weave a world for themselves. The connections made by good teachers are held not in their methods but in their hearts – the place where intellect, emotion, spirit, and will converge in the human self – supported by the community that emerges among us when we choose to live authentic lives. BONUS: Includes an audio CD featuring a 45-minute conversation between Parker Palmer and his colleagues, Marcy Jackson and Estrus Tucker from the Center for Courage & Renewal. They reflect on what they have learned from working with thousands of teachers in their "Courage to Teach" program (www.CourageRenewal.org) and with others who yearn for greater integrity in their professional lives. Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.

Wisdom that's been inspiring, motivating, and guiding teachers for two decades The Courage to Teach speaks to the joys and pains that teachers of every sort know well. Over the last 20 years, the book has helped countless educators reignite their passion, redirect their practice, and deal with the many pressures that accompany their vital work. Enriched by a new Foreword from Diana Chapman Walsh, the book builds on a simple premise: good teaching can never be reduced to technique. Good teaching comes from the identity and integrity of the teacher, that core of self where intellect, emotion, and spirit converge—enabling 'live encounters' between teachers, students, and subjects that are the key to deep and lasting learning. Good teachers love learners, learning, and the teaching life in a way that builds trust with students and colleagues, animates their daily practice, and keeps them coming back tomorrow. Reclaim your own vision and purpose against the threat of burn-out Understand why good teaching cannot be reduced to technique alone Explore and practice the relational traits that good teachers have in common Learn how to forge learning connections with your students and "teach across the gap" Whether used for personal study, book club exploration, or professional development, The Courage to Teach is rich with time-honored wisdom, and contemporary clarity about the ancient arts of teaching and learning.

"This book is for teachers who have good days and bad -- and whose bad days bring the suffering that comes only from something one loves. It is for teachers who refuse to harden their hearts, because they love learners, learning, and the teaching life." - Parker J. Palmer [from the Introduction] Teachers choose their vocation for reasons of the heart, because they care deeply about their students and about their subject. But the demands of teaching cause too many educators to lose heart. Is it possible to take heart in teaching once more so that we can continue to do what good teachers always do -- give heart to our students? In The Courage to Teach, Parker Palmer takes teachers on an inner journey toward reconnecting with their vocation and their students -- and recovering their passion for one of the most difficult and important of human endeavors.

Now updated, this title has always been about helping teachers recover their passion for teaching, one of the most difficult and conflicted professions. Pushed and pulled by regulations and institutions, teachers can feel ground down and demoralized without connection with the heart of their vocation.

Reclaim Your Fire "Teaching with Fire is a glorious collection of the poetry that has restored the faith of teachers in the highest, most transcendent values of their work with children...Those who want us to believe that teaching is a technocratic and robotic skill devoid of art or joy or beauty need to read this powerful collection. So, for that matter, do we all." ?Jonathan Kozol, author of Amazing Grace and Savage Inequalities "When reasoned argument fails, poetry helps us make sense of life. A few well-chosen images, the spinning together of words creates a way of seeing where we came from and lights up possibilities for where we might be going...Dip in, read, and ponder; share with others. It's inspiration in the very best sense." ?Deborah Meier, co-principal of The Mission Hill School, Boston and founder of a network of schools in East Harlem, New York "In the Confucian tradition it is said that the mark of a golden era is that children are the most important members of the society and teaching is the most revered profession. Our journey to that ideal may be a long one, but it is books like this that will sustain us - for who are we all at our best save teachers, and who matters more to us than the children?" ?Peter M. Senge, founding chair, SoL (Society for Organizational Learning) and author of The Fifth Discipline Those of us who care about the young and their education must find ways to remember what teaching and learning are really about. We must find ways to keep our hearts alive as we serve our students. Poetry has the power to keep us vital and focused on what really matters in life and in schooling. Teaching with Fire is a wonderful collection of eighty-eight poems from such well-loved poets as Walt Whitman, Langston Hughes, Billy Collins, Emily Dickinson, and Pablo Neruda. Each of these evocative poems is accompanied by a brief story from a teacher explaining the significance of the poem in his or her life's work. This beautiful book also includes an essay that describes how poetry can be used to grow both personally and professionally. Teaching With Fire

was written in partnership with the Center for Teacher Formation and the Bill & Melinda Gates Foundation. Royalties from this book will be used to fund scholarship opportunities for teachers to grow and learn.

This book offers practical advice to higher education administrators on how to develop and implement effective and efficient enrollment and retention management programs. The book offers over 500 suggestions and is the first practical guide to combine both enrollment and retention management. Dennis's book will challenge campus administrators to re-think how they conduct business on their campuses and why it is important to treat students as valued customers.

Aging as a passage of discovery and engagement From bestselling author Parker J. Palmer comes a brave and beautiful book for all who want to age reflectively, seeking new insights and life-giving ways to engage in the world. "Age itself," he says, "is no excuse to wade in the shallows. It's a reason to dive deep and take creative risks." Looking back on eight decades of life—and on his work as a writer, teacher, and activist—Palmer explores what he's learning about self and world, inviting readers to explore their own experience. In prose and poetry—and three downloadable songs written for the book by the gifted Carrie Newcomer—he meditates on the meanings of life, past, present, and future. "The laws of nature that dictate sundown dictate our demise. But how we travel the arc toward the sunset of our lives is ours to choose: will it be denial, defiance, or collaboration?" With compassion and chutzpah, gravitas and levity, Palmer writes about cultivating a vital inner and outer life, finding meaning in suffering and joy, and forming friendships across the generations that bring new life to young and old alike.

This primer on authentic education explores how mind and heart can work together in the learning process. Moving beyond the bankruptcy of our current model of education, Parker Palmer finds the soul of education through a lifelong cultivation of the wisdom each of us possesses and can share to benefit others.

Hope for American democracy in an era of deep divisions In *Healing the Heart of Democracy*, Parker J. Palmer quickens our instinct to seek the common good and gives us the tools to do it. This timely, courageous and practical work—intensely personal as well as political—is not about them, "those people" in Washington D.C., or in our state capitals, on whom we blame our political problems. It's about us, "We the People," and what we can do in everyday settings like families, neighborhoods, classrooms, congregations and workplaces to resist divide-and-conquer politics and restore a government "of the people, by the people, for the people." In the same compelling, inspiring prose that has made him a bestselling author, Palmer explores five "habits of the heart" that can help us restore democracy's foundations as we nurture them in ourselves and each other: An understanding that we are all in this together An appreciation of the value of "otherness" An ability to hold tension in life-giving ways A sense of personal voice and agency A capacity to create community *Healing the Heart of Democracy* is an eloquent and empowering call for "We the People" to reclaim our democracy. The online journal *Democracy & Education* called it "one of the most important books of the early 21st Century." And *Publishers Weekly*, in a Starred Review, said "This beautifully written book deserves a wide audience that will benefit from discussing it."

* Includes passages from Scripture and opportunities to reflect and pray * Ideal for use during Advent or Lent.
