I like Gregg Braden but I found this book a little boring from the second half. The first part about the actual research was interesting but could do with a bit more detail I thought. Second half of the book was too "propaganda" for me, readers should be able to make their own conclusions. it was a bit too much of "stating the obvious" in the second part of the book im.afraid.

I love Gregg Braden's books and this does not disappoint. It does take focus to read because it gets deep.
