The Lankavatara Sutra is the holy grail of Zen. Zen's first patriarch, Bodhidharma, gave a copy of this text to his successor, Hui-k'o, and told him everything he needed to know was in this book. Passed down from teacher to student ever since, this is the only Zen sutra ever spoken by the Buddha. Although it covers all the major teachings of Mahayana Buddhism, it contains but two teachings: that everything we perceive as being real is nothing but the perceptions of our own mind and that ...

In addition to presenting one of the most difficult of all Buddhist texts in clear English, Red Pine has also added summaries, explanations and notes, including relevant Sanskrit terms on the basis of which the Chinese translation was made. This promises to become an essential text for anyone seeking to deepen their understanding or knowledge of Zen.

the Pali language. Suzuki has greatly helped the reader of the basic scripture by discussing the main ideas. He tells how to study this scripture, compares it with the popular Zen Buddhism discusses such typical and important doctrines as Mind-only the Triple body of the Buddha and many minor topics. Suzuki is both an exacting scholar and an understanding exponent of these difficult concepts. He adds a Sanskrit-Chinese-English Glossary, and also an Index. This work is essential for grasping the main ideas of the scripture.

authoritative and influential texts, Lankavatara-sutra. Compiled in the second half of the fourth-century A.D., this sutra not only represents a comprehensive synthesis of both early and late religio-philosophical ideas crucial to the understanding of Buddhism in India, but it also provides an insight into the very early roots of the Japanese Zen Buddhism in the heart of the South Asian esotericism. The first part of the book outlines the three-fold nature of Being, as conceptualized in Buddhist metaphysics. The author uses an interpretive framework borrowed from the existentialist

philosophy of Heidegger, in order to separate the transcendental Essence of Being from its Temporal manifestation as Self, and from its Spatial or Cosmic dimension. The second part clarifies the Buddhist approach to knowledge in its religious, transcendental sense and it shows that the Buddhists were actually first in making use of dialectical reasoning for the purpose of transcending the contradictory dualities imbedded in the common ways of perceiving, thinking, and arguing about reality.
